## THE SEALED CASH HANDLING SYSTEM FROM CASHGUARD

*CashGuard Presidio is a fully contained and sealed cash management system that provides the best defense against both internal and external theft in the retail industry. In addition, CashGuard Presidio is self-sufficient and automated. It will count and track the money it contains, so you don't have to.*

Presidio, the Spanish word for a fortified enclosure, represents the strength, security, durability and self-reliance that we believe this CashGuard closed cash system offers.

CashGuard Presidio seals the entire cash handling process, from the point of sale to the CIT pick-up. Presidio is easy to use, flexible and designed to meet the needs of the retail industry. It is the only system that can pay out notes and coins at the same time. This makes for a faster check-out for customers and increased business potential for retailers. Together with CashGuard's first-rate support service, and the best quality equipment in the field, CashGuard Presidio gives consumers an exceptional point of sale experience, while enabling retailers to save time, money and enhance their business performance.

When constructing CashGuard Presidio, we have created a solution that brings out the best of CashGuard technology to meet the specific needs of the retail industry.
